

Visual data journalist and product designer who turns complex systems and datasets into clear, human-centered visual narratives — across interactive journalism, UX, and game design. Collaborative, curious, and comfortable moving from research and documentation through to shipped, interactive work.

EXPERIENCE

- **The Ken** — Visual Data Journalist
Jan 2026 – Present
Design and build interactive data visualizations and narrative-driven infographics that translate complex reporting into clear, accessible stories for readers.
- **Sensorium / Khelum Foundation** — Information Designer
Jun 2025 – Aug 2025
Built **p5.js** and **Unity** data-visualization systems that turned academic performance data into report-card infographics for **200+ students** across grades 4–12.
- **Asian Institute of Design** — Design Mentor
Aug 2025
Led a **2-week, 20-hour** game design workshop on documentation, rapid prototyping, and playtesting for students at a leading Bangalore design college.
- **Terrabyte Games** — Associate Game Designer
Jan 2023 – Mar 2024
Designed and shipped **6 casual 3D games (100K+ players)** for the Terra platform (~\$108K valuation), collaborating with 20+ developers and artists on performance and visual systems.
- **TVS Motors** — Interactive Designer, Part-time
Jul 2022 – Dec 2023
Designed interactive games and UX features for the **TVS X** electric scooter launch, grounded in research across **14 rider personas** and **50,000+ connected users**.
- **Delopus** — Guest Lecturer
Mar 2021
Co-taught a **10-session** game and level design module for 25 students, partnering with a senior US-based industry professional on spatial storytelling.
- **Raghava KK Studio** — Graphic Designer
Jan 2019 – Dec 2020
Designed art books, brochures, and posters exhibited at **Echoes of Earth** (20,000+ attendees), **BOMA Momentum** (Barcelona), and **Future Bets** (CNBC media partner).
